"I have had the opportunity to work as a truck dispatcher, where I gained valuable experience in the transportation industry. During my time in this role, I had the privilege of working with a variety of trucks, including those with up to 26-foot truck box trailers.

One of the key skills I acquired was using the Sylectus platform, which is a powerful tool for optimizing and managing transportation operations. With Sylectus, I was able to efficiently

plan and coordinate truck routes, track shipments, and ensure on-time deliveries.

My responsibilities as a truck dispatcher also included communicating with drivers, providing them with route instructions, and addressing any issues that arose during their journeys. I learned to adapt quickly to changing situations and make critical decisions to keep operations running smoothly.

Overall, my experience as a truck dispatcher has given me a deep understanding of the logistics and transportation industry, as well as the importance of effective communication and problem-solving. It was a rewarding experience that allowed me to contribute to the success of the transportation operations I was responsible for."
