Scheduler Autotask Issues
Partition management, Partitioning operations issues
Parallel execution issues
Performance issues occurred on Multitenant Architecture
Materialized Views errors and issues on different operations with their
Make use of SQLT, Hang Analyze, SSD, 10046 / 10053 trace files, AWR/ADDM/ASH for analysis of customer incidents.
Competențe: Database performance analyst

Software research and Development · Viamedici Software GmbH · Iasi, Romania

Iunie 2017 - Iunie 2019 · 2 ani 1 lună

Used Technologies and Tools: Oracle PL/SQL, SQL Server 2012, PostgreSQL, SQL Reporting Services, Elasticsearch, SQL Query Analyze, SQL Tuning, SQL Profiler.

Implementations of more functionalities using Oracle PL/SQL and SQL Server 2012, 2014, 2016 - procedures, functions, views, SQL queries, triggers, types, table variable and over sql objects, regarding Business specifications. Experience on Agile developing teams according to SCRUM in Sprint Development. Analyze data, process data according to certain algorithms regarding tasks specifications, improve database performance, tuning and execution time of functionalities.

IT Specialist, developer · B.C. Moldova-Agroindbank S.A. · Chișinău

Aprilie 2009 - Iunie 2017 · 8 ani 3 luni

Developing on Accounting Software and Accounting, Financial Reporting using SQL Server 2008 for DB, Transact SQL (DDL, DML, procedures, functions, tabular functions). Collecting and analyzing required business information, SSRS report designing, Creation of database queries (T-SQL) and reports based on MS SQL Reporting Services. SQL Reporting Services 2008.

Developing a local module in Bank Core Software - Temenos T24, using DataBase - JBase:

1. Worked in various projects of software integration (e.g. integration of electronic channels) and developed of interfaces for T24 (Internet Banking, POS Payd).
2. Export data for external systems in different formats - ASCII, xml, OFS messages.
3. Use the Java WS Axis to integrate a lot of Temenos T24 functionality and the external collection system

4. Developing on Banking and Financial Reporting
Experience in T24 template programming, T24 customization (VERSION, ENQUIRY, OFS.SOURCE parametrization, online communication), COB and multi-threads processing (SELECT routine, LOAD routine, main processing routine) . Knowledge of TAFC/jBASE, InfoBasic (jBC), jQL, OFS.

Technologies used: Temenos T24, JBase. Java, Axis WS, java programming using the T24 Java VM.

Good understanding of the following T24 Business modules - Funds Transfer, Loan and Deposits, Payment Due, Customer, Account, local modules and applications, Debit Collector, etc.

developer, programming · BC "Victoriabank" S.A · Chişinău

Ianuarie 2003 - Octombrie 2006 · 3 ani 9 luni

Developing the Software in house:

1. Developing interface between banking Equation and payment system utilities
2. Developing of Core Banking application import (Equation) SWIFT messages
3. Analysis and Application Development miniCRM.
4. Developing banking application filing boxes and leases
5. Develop interface check tax codes

Technologies used: Delphi 7, SQL Server 2000, API connection DB2, Web Services, XML

developer, programming · B.C. Moldova-Agroindbank S.A., · Chişinău

Octombrie 2001 - Ianuarie 2003 · 1 an 4 luni

Developing programs in Bank - Desktop Forms regarding the inserting data in DataBase, import and export data from/to ASCII (read, write).

Technical Skills: Delphi, BD - Foxpro, Paradox

Domeniul dorit

- IT, Tech

Studii: Superioare

State University, International Institute of Management (Republic of Moldova)

Absolvit în: 2003

Facultatea: Economy

Specialitatea: Banking and Stock Exchanges

State University (Republic of Moldova)

Absolvit în: 2001

Facultatea: Mathematics and Informatics

Specialitatea: Master in Informatics

State University (Republic of Moldova)
