QA Manual Tester

Despre mine

I am a patient, calm person, which allows me to build friendly relationships with my colleagues. I am interested in working in the IT field, especially as a manual tester. I am in continuous professional development, I am a member of the Utest community where I passed the Academy and participated in paid testing cycles. I am ready to apply my skills to perform daily tasks effectively to contribute to the increase of the company's profit.

- To start testing, it is necessary to study the software documentation, which includes: testing methods, deadlines, reporting rules,
etc.

- I performed exploratory testing, internationalization, functional testing to identify critical errors of the tested software;

- After the tests, I identified and reported them by creating a bug report;

- To perform the tests, it was sometimes necessary to download,

install and configure additional software;
