IT Specialist

About me

I am a passionate young professional at the beginning of my career, seeking a remote job that allows me to continue my studies simultaneously. I am currently a student at the Technical University of Moldova (UTM), specializing in Software Engineering. I have participated in multiple Web Development and Graphic Design competitions, gaining valuable experience in these fields.

I am fluent in English, holding a Cambridge certification at C1 level. My skills include teamwork, problem-solving, and adaptability. I have earned Certiport certifications in HTML5 Application Development, Device Configuration and Management, and Database. Additionally, I have previous experience as a Social Media Manager.

In my free time, I am passionate about computers, design, motorcycles, cars, and microlearning, constantly seeking new ways to expand my knowledge and skills. I am eager to contribute my expertise to the success of a company while pursuing personal and professional growth.
